CAT 3126 WITH LOW OIL PREASURE - JustAnswer

Talked to a mechanic at Cat. He said extra oil wouldn't do anything to the oil pressure; but I read it could blow the seals. He also said that anything below 18 should get a low oil pressure warning, and an engine shutdown. He said that the gauge could be bad. He also stated, when asked about the pump causing it, that it was unlikely, but possible.

High oil pressure - 3126 engine | Expedite Trucking Forums

dear. the oil was change and the oil level is ok, oil filter changed, fuel filter changed and there is no oil in the cooling system or fuel. when we start the engine and the RPM is 800, cooling temp.is around 30C and the oil pressure is 50 psi. when the engine is in the operation temp. 80-100 C and the oil pressure in this time is 25-20 psi and the warning low oil pressure light is on with RPM ...

...

For accurate engine oil pressure readings, try Dorman's replacement Caterpillar 3126 engine oil pressure sensor. Replacement of the sensor will help protect your vehicle from being driven at a low oil pressure. Avoid costly engine repairs and maintain performance with this semi truck part or any of our other truck sensors. .

Caterpillar 3126 Engine Oil Pressure Sensor

Our older 3126 behaves the same way. The oil pressure apparently is higher at start-up because the oil is at ambient temperature and is thicker. As the oil heats up, the pressure drops. When idling after a long haul, the pressure may go way down.
